

Brief CV

Name	Zhenyi Du	Gender	Male	
Title (Pro./Dr.)	Professor	Country	China	
Phone Number		University Email		
University/Department	Taiyuan University of Technology/Key Lab of Coal Science and Technology			
Personal Web Sites				
Research Area	Reforming of biomass gasification tar, upgrading of coal-derived liquids			
<p>Brief introduction of your research experience:</p> <p>Professor Du is the vice director of the Key Lab of Coal Science and Technology at Taiyuan University of Technology. He received his BS at Dalian University of Technology in 2009, and his PhD from University of Minnesota in 2013. During his PhD study, he studied pyrolysis and hydrothermal conversion of microalgae for biofuels production. After one-year postdoc at University of Tennessee in 2013, he started his faculty career at Taiyuan University of Technology in 2014. At TUT, his research is mainly focused on catalytic reforming of biomass gasification tar and upgrading of coal-derived liquids.</p>
